Summary
Solving design problems, conceptualizing creative outcomes, and building intuitive solutions for growing businesses, startups, and freelancers alike. Bridging the gap between clients, stakeholders, and users with compelling graphics, smart user experiences, and human-centered artistry across a variety of industries. Teaching design and development daily, staying current on tools and trends, and using new tech when it serves the project.

Work Experience

July 2023 — Present: F.I.R.S.T. Institute – Graphic Design and Web Design Instructor
November 2022 — July 2023: F.I.R.S.T. Institute – Graphic Design and Web Design Substitute Instructor

- Teaches and leads instructorship for various classes within the Graphic Design and Web Design department.
- Works closely with colleagues and directors to improve the curriculum and student education.
- Develops lesson plans, assignments, and projects for the UX Design course and Web Development course.
- Creates examples and resources for various projects and assignments in the UX Design and Web Development courses.

May 2021 — Present: Freelance Designer & Developer

- Design and hand-code custom portfolio websites for creatives and independent professionals.
- Design and write resumes tailored to each client's industry and goals.
- Manage commissions from intake through delivery, including revisions and client communication.
- Design UI and UX for games, including menus, HUDs, and in-game interfaces from wireframes through final assets.

January 2022 — January 2026: Varsity Tutors – Graphic and Web Design Tutor

- Facilitated student success in web and graphic design courses, specializing in Adobe Illustrator, UX/UI Design, Figma, HTML, and CSS.
- Assisted students with gaining the competency required for understanding and executing challenging graphic and web design concepts.
- Provided meaningful support to help students reach their goals and pass their courses.

October 2023 — January 2024: Diamond Pastries – Freelance UX Designer
March 2022 — January 2023: Diamond Pastries – Freelance Brand Designer

- Researched, ideated, and designed UX and UI concepts and pages for the ecommerce website.
- Created and established Diamond Pastries' visual brand identity, including logo design, color schemes, typography, and other critical design elements.
- Designed various brand assets, such as business cards, packaging, and digital menus to ensure consistency across all materials.

March 2022 — January 2023: Angelite Logistics – UX Designer

- Conducted thorough user research through surveys, interviews, and usability testing to inform the design of Angelite Logistics' website.
- Designed a visually stunning and user-friendly website concept using Figma, Illustrator, and Photoshop.
- Collaborated closely with key stakeholders to create a website concept that effectively represented brand values, attracted new business, and improved current business.

August 2021 — December 2021: Flower Bomb Media – Web Design Lead
May 2021 — August 2021: Flower Bomb Media – Web Design Intern

- Developed design strategies and concepts to boost website engagement and reach each website's specific target audience.
- Monitored website analytics, delivering on-target improvements to the overall user experience.
- Worked cross-functionally with other teams to craft creative solutions and boost success for both the printed magazine and websites.
